

November 2009 Meeting Minutes

This month's meeting was held November 12th at the Samuell Grand Recreation Center. There were 5 members in attendance.

Ralph Snow reported \$4534.53 in the club treasury as of November 11th.

Ron Romeo reported that he is working on the club website but that progress is slow. He expects to have more time to devote to it in the next couple of months.

Ralph Snow provided copies of his summary of the Fly In survey responses. It was decided that Ralph would email the summary to the club members.

Next year's Fly In was discussed. Frank Korman agreed to be the official Contest Director, with others sharing the CD duties at the event. Frank will get together with the Dallas RC club and establish the dates for next year. Since many of the respondents expressed an interest in a raffle it was suggested that one be held on the Sunday. If need be the club can purchase some prizes.

Ron Romeo suggested that we might try a speed trap for jet models next year as a way to increase interest in the event.

Several members were disappointed that they were not informed about the electric fun-fly put on by the Thunderbird club the previous weekend. Frank Korman will contact Joe Joplin of that club and request that DEAF be notified of such events in the future.

It was announced that the 114th Aerosquadron Grapevine Police Santa-Cop fun-fly will held on Saturday, December 5th. As usual, admission will be a new unwrapped child's toy.

All club officers agreed to serve for another year.

The meeting was adjourned at 8:45 PM.

Ralph Snow
DEAF Secretary/Treasurer
